

# Jeonghoon (Jay) Lim

## Curriculum Vitae

Department of Physics and Astronomy,  
Iowa State University  
E-Mail: [dlawjdgns275@gmail.com](mailto:dlawjdgns275@gmail.com)  
Website: [jhlum.weebly.com](http://jhlum.weebly.com)  
Phone: 515-708-5853

### *Research Interests*

---

- **Computational Astrophysics:** Magnetohydrodynamics, Particle-Mesh Methods
- **Protoplanetary Disks:** MHD Turbulence, Non-ideal MHD Effects, Planetesimal and Planet Formation
- **Turbulence:** MHD Turbulence Dynamo, Decaying Turbulence

### *Education*

---

- **Doctor of Philosophy** **Fall 2020 - Expected in Fall 2025**  
*Ph.D in Astrophysics*  
Department of Physics and Astronomy, Iowa State University  
Major Professor: Dr. Jacob B. Simon
- **Master's Degree** **Spring 2020**  
*M.S. in Astronomy*  
Department of Astronomy and Space Science, Chungnam National University, South Korea  
Major Professor: Dr. Jungyeon Cho  
Thesis title: "Statistics of Turbulence Driven by Solenoidal and Compressive Drivings"
- **Bachelor's Degree** **Spring 2018**  
*B.S. in Astronomy*  
Department of Astronomy and Space Science, Chungnam National University, South Korea

### *Research Experience*

---

**Graduate Research Assistant** **Spring 2021 - Present**

*Department of Physics and Astronomy, Iowa State University; supported by NASA **FINESST** Award*

- Developing the turbulence forcing module and incorporating and making it available in the state-of-the-art developed code (Athena).
- Investigating the interaction between turbulence and streaming instability and how it affects planetesimal formations.

## **Graduate Research Assistant**

**Spring 2018 - Spring 2020**

*Department of Astronomy and Space Science, Chungnam National University, South Korea*

- Evaluated turbulence dynamo in MHD turbulence using compressive driving scheme.
- Investigated decay of hydrodynamic turbulence with non-isothermal equation of state. This project is published to Journal of the Korean Astronomical Society.

## ***Teaching Experience as a Graduate Student***

---

### **Graduate Teaching Assistant**

- *Department of Physics and Astronomy, Iowa State University*
  - PHYS 111 Labs (General Physics I - Laboratories, Fall 2020)
    - Led lab experiments and discussions
    - Provided written feedback to Lab Notebook Assignment
    - Held weekly help room
- *Department of Astronomy and Space Science, Chungnam National University, South Korea*
  - Galactic Astronomy and Practice (Junior Level, Spring 2019)
    - Organized study sessions
    - Provided oral and written feedback for weekly assignments
    - Graded student assignments on a weekly basis

## ***Publications and Professional Presentations***

---

## **Publications**

- (Submitted) **Jeonghoon Lim**, Jacob B. Simon, Rixin Li, Philip J. Armitage, Daniel Carrera, Wladimir Lyra, David G. Rea, Chao-Chin Yang, Andrew N. Youdin, "Streaming Instability and Turbulence: Conditions for Planetesimal Formation", DOI: [arxiv.org/abs/2312.12508](https://arxiv.org/abs/2312.12508)
- **Jeonghoon Lim**, Jungyeon Cho, and Heesun Yoon (2020). "Generation of Solenoidal Modes and Magnetic Fields in Turbulence Driven by Compressive Driving", The Astrophysical Journal, 893, 75, DOI: [iopscience.iop.org/article/10.3847/1538-4357/ab8066](https://iopscience.iop.org/article/10.3847/1538-4357/ab8066)
- **Jeonghoon Lim** and Jungyeon Cho (2020). "Decay of Turbulence in Fluids with Polytrropic Equations of State", Journal of the Korean Astronomical Society, 53, 49, DOI: <http://koreascience.or.kr/article/JAKO202012941166990.page>

## **Oral Presentations**

- Clumping of mm-cm sized solid particles in the presence of turbulent gas, Jeonghoon Lim, Astro Seminar, Iowa State University, Nov 4, 2022
- Generation of Solenoidal Modes and Magnetic Fields in Turbulence Driven by Compressive Driving, Jeonghoon Lim, Astro Seminar, Iowa State University, Oct 30, 2020
- Generation of Magnetic Fields in Turbulence Driven by Compressive Driving, Jeonghoon Lim and Jungyeon Cho, Magnetic Fields in the Universe 7, Quy Nhon, Vietnam, February 16-22, 2020
- Generation of Solenoidal Modes in Turbulence Driven by Compressive Driving, Jeonghoon Lim and Jungyeon Cho, Korean Astronomical Society Fall Meeting, Seoul, South Korea, October 16-18, 2019

## ***Professional Services***

- Local Organizing Committee at 8th East-Asia School and Workshop on Laboratory, Space, and Astrophysical Plasmas, July 30 - August 3, 2018

## ***Honors/Awards***

- Future Investigators in NASA Earth and Space Science and Technology (FINESST, \$50,000 per year) 2022 - 2025

- Journal of the Korean Astronomical Society Award for Graduate Research 2020
- Graduate Academic Merit Scholarship, Chungnam National University 2019
- Graduate Academic Merit Scholarship, Chungnam National University 2018
- Undergrad Academic Merit Scholarship, Chungnam National University 2016

## ***Programs and Software***

---

- **Languages:** C, Julia, Python, VISIT, Fortran, IDL
- **Community Research Numerical Tool:** Athena
